- ✓ **Tool-Free & Time/ Cost Saving**
Accelerates installation and routine maintenance
- ✓ **Clean & minimalist look**
No exposed fasteners for clean architectural appearance

Advanced Functional & Custom Options

Emergency Battery Backup

Ensures continuous illumination during power outages.

Microwave Motion Sensor

Smart motion detection for energy-saving operations.

Screw Reinforcement

Extra vibration-resistant secondary locking for industrial harsh locations.

Underwaist Accessory

Conceals wall gaps for a clean, seamless installation. Suitable for specified applications where safety considerations are paramount.

Traditional & Commercial Applications

Circulation Zones

Corridors, stairwells, underpasses, multi-storey car parks.

External Areas

External building walls, pedestrian walkways.

Commercial Spaces

Hotel lobbies, retail premises, washroom, community centres.

Harsh & Specified Environments

Marine docks, logistics yards, Correctional Institution and coastal wet environments.
